Information about the health insurance offered by AOK

The AOK is a non-profit-oriented public health insurance company. As Germany’s largest health insurance organization we look after more than 24 million policyholders nationwide. We have the administrative and financial strength to provide excellent medical care at reasonable rates. Our service is fast, professional and personalized.

We have established a special service for students, the AOK Student-Service directly on-site at over 70 universities. The staff of the AOK Student-Service will be glad to help you.

How much does it cost? The AOK offers you one of the most favourable insurance premiums in Germany. Our monthly contribution for health insurance is 72,17 € and for nursing care 16,55 € (with children) or 18,17 € (without children).

We will debit the insurance premium from your bank account on the 15th of the month, always retroactive for the previous month.

After joining the AOK you will receive an AOK insurance card with which you can see a doctor throughout Germany. Please present the card every time you go to a doctor. The invoice for your medical treatment will be sent straight to the AOK and will be paid by us.

Unfortunately, you are required to make a few additional payments:
- 10 € (per day) when you stay in hospital (maximum for 28 days per calendar year).
- For medication that is only available by prescription you have to make a small shared payment which makes up: 10% of the costs, min. 5 € and max. 10 €.

**Important:** If you are ill and need some medication, see a doctor first and he/she will give you a prescription. Please let us know, if you change your address or your bank account.

If you have questions just ask us. We give you professional, detailed advice. The staff at the AOK Student-Service will be happy to help you.

We wish you an enjoyable stay in Germany and the best of luck with your studies.

Studying in Germany: Some helpful Tips

Before you begin your studies there are numerous things that have to be organized. The AOK Student-Service wants to support you as an experienced and professional partner. Listed below are some important facts related to studying in Germany:

- If you wish to study at a German university/college of higher education, your German language skills will be tested beforehand, meaning you are obliged to show proof of your German skills.

- Students normally have to take what is known as the “German language examination for the entrance of foreign university applicants.” As long as you are taking part in a German language course at a German university/college it is in principle not possible to obtain national health insurance from a national health insurance company, e.g., AOK!

- During this period you should insure yourself against illness elsewhere. You can obtain offers from private insurance companies.

- After finishing the preparation course for the test you can study at a German university/college.

- According to German law, students enrolled at a university/college must have statutory health insurance.

**Exception:** You come from an EU/EAA country or Switzerland and a social security agreement exists with your native country (e.g., Turkey, Croatia, Serbia-Montenegro, Macedonia, Bosnia-Herzegovina or Tunisia) and you have health insurance in your native country. If this is the case, please submit the assignment for coverage from your national health insurance company.

- Note: you cannot begin studying at a German university if you do not possess any health insurance coverage. You are obliged to show the university/college evidence of an existing health insurance policy.

- The AOK in every federal state in Germany is registered as public corporation under federal law and is non-profit oriented. As one of Germany’s biggest health insurers, we have the financial and administrative power to ensure excellent medical care with favourable conditions for the benefit of our policy holders.

- In most cases you can find our AOK Student-Service offices directly on-site at over 70 German universities. Take a look at www.aok-on.de/nordost
