Self-declaration on compliance with the ILO’s core labour standards
I/We declare that it is not possible to submit evidence that the contractually agreed delivery of goods in accordance with Article 8(2) of the Act on Tendering and Awarding of Public Contracts for the State of Berlin (BerlAVG) was acquired or produced without disregarding the minimum standards set out in the ILO core labour standards. Despite considerable efforts, certificates to this effect could not be obtained. I/We understand that if I/we knowingly make a false declaration, this may result in my/our exclusion from further contract awards and that my/our company may be prohibited from participating in public tenders for a period of up to three years.
