

Publications 1997

Albertini, G.; Bruno, G.; Dunn, B. D.; Fiori, F.; Reimers, W.; Wright, J. S.:
Comparative neutron and X-ray residual stress measurements on Al-2219 welded plate

Materials Science & Engineering A 224, (1997), pp. 157-165

Broda, M.; Reimers, W.:

Röntgenographische Ermittlung der Last- und Eigenspannungsverteilung in faserverstärkten Keramiken

Verbundstoffe und Werkverbundstoffe, K. Friedrich (Hrsg.), (1997), pp. 335-340

Genzel, C.:

X-ray stress gradient analysis in thin layers-problems and attempts at their solution

phys. stat. sol. (a) 159, (1997), pp. 283-296

Genzel, C.:

The scattering vector method, in: structural and residual stress analysis by nondestructive methods

V. Hauk (Hrsg.), Elsevier, Amsterdam, (1997), pp. 384-387

Genzel, C.:

Line broadening by non-oriented micro RS

in: Structural and Residual Stress Analysis by Nondestructive Methods, V. Hauk (Hrsg.), Elsevier, Amsterdam, (1997), pp. 435-460

Genzel, C.; Reimers, W.; Klein, K.; Spur, G.:

Evaluation of residual stress gradients in thin textured TiN and Ti_{0.85}Cr_{0.15}N coatings by X-ray diffraction performed in the scattering vector mode

Euromat 97, Proceedings of the 5th European Conference on Advanced Materials and Processes and Applications, Maastricht, NL, L.A.J.L. Sarton and H. B. Zeeijk (Hrsg.), Vol. 4, (1997), pp. 213-216

Immelmann, S.; Reimers, W.:

Eigenspannungsanalysen an Metall-Keramik-Verbindungen

VDI Fortschrittberichte, Löten von Keramik-Keramik- und Keramik-Metall-Verbindungen '97, Reihe 2, Fertigungstechnik, Nr. 414, (1997), pp. 122-135

Müller, A.; Gnäupel-Herold, T.; Reimers, W.:

Small lattice mismatches in highly imperfect single crystals: a probe into phase specific strains and Stresses - II. strain and stress states in a nickel-based superalloy after uniaxial high-temperature loading

phys. stat. sol. (a) 159, (1997), pp. 375-396

Pyzalla, A.:

Analysis of thermal residual microstresses in PMMCs by neutron diffraction

Mat-Tec 97, Analysis of Residual Stresses From Materials To Bio-Materials, Technology Transfer Series, A. Lodini (Hrsg.), Gournay sur Marne, (1997), pp. 255-260

Pyzalla, A.; Berns, H.:

Berechnungs- und experimentelle Verfahren zur Charakterisierung thermischer Mikroeigenstressungen in Stückverbunden

Mat.-wiss. u. Werkstofftech. 28, (1997), pp. 180-197

Pyzalla, A.; Reimers, W.:

Residual stresses and texture in cold forward extrusion

in: Competitive Advantages by Near-Net-Shape Manufacturing, H.-D. Kunze (Hrsg.), DGM-Informationsgesellschaft, Verlag, Oberursel, (1997), pp. 175-180

Pyzalla, A.; Reimers, W.:

Microstructural dependence of thermal residual microstresses in PMMCs,

Physica B 234-236, (1997), pp. 974-976

Pyzalla, A.; Reimers, W.:

Neutron diffraction analysis of thermal residual stresses in a large Compressor impeller

Mat-Tec 97, Analysis of Residual Stresses From Materials To Bio-Materials, Technology Transfer Series, A. Lodini (Hrsg.), Gournay sur Marne, (1997), pp. 171-176

Qin, J.; Rösner-Kuhn, M.; Drewes, C.; Thiedemann, U.; Kuppermann, G.; Camin, B.; Blume, R., Frohberg, M. G.:

Spectral emissivities at wavelengths in the range 500-653 nm, enthalpies, and heat capacities of the liquid phases of cobalt, titanium, and zirconium

High Temperature and Materials Science 37, (1997), pp. 129-141

Reimers, W.:

Analysis of residual stress states in coarse grained and single crystal nickelbase-superalloys

in: Advances in X-Ray Analysis, Vol. 39, J.V. Gilfrich, D.K. Bowen, T.C. Huang, C.C. Goldsmith, R. Jenkins, I.C. Noyan, D.K. Smith and P.K. Predecki (Hrsg.), Plenum Publishing Corporation, New York, (1997), pp. 211-223

Reimers, W.:

Interference-peak determination

in: Structural and Residual Stress Analysis by Nondestructive Methods, V. Hauk (Hrsg.), Elsevier, Amsterdam, (1997), pp. 90-102

Reimers, W.:

A method using at Least six different PsiPsi-measurements

in: Structural and Residual Stress Analysis by Nondestructive Methods, V. Hauk (Hrsg.), Elsevier, Amsterdam, (1997), pp. 152-155

Reimers, W.:

Stacking faults, in: structural and residual stress analysis by nondestructive methods

V. Hauk (Hrsg.), Elsevier, Amsterdam, (1997), pp. 221-225

Reimers, W.:

Residual stress analysis in single crystallites

in: Structural and Residual Stress Analysis by Nondestructive Methods, V. Hauk (Hrsg.), Elsevier, Amsterdam, (1997), pp. 461-494

Schmackers, T.; Reimers, W.; Cosack, T.; Schäfer, G.:

Mikrostruktur- und Eigenspannungsentwicklung in Wärmedämmschichten bei thermischer Beanspruchung

Fortschrittsberichte der Deutschen Keramischen Gesellschaft, Beiheft cfi/ceramic forum international 11, Heft 2, (1997), pp. 195-205

Zucko, M.; Pöhlandt, K.; Pyszalla, A.; Reimers, W.; Kockelmann, H.:

Berechnung der Umformeigenspannungen beim Fließpressen und Vergleich mit experimentellen Ergebnissen

Mat.-wiss. u. Werkstofftech. 28, (1997), pp. 417-423
