

Publikationen 2000

Aris, S.; Martins, R.V.; Merino, J. M.; Pyzalla, A.:

Simulation of deformation textures and crystallite microstrains of cubic metals and comparison to experimental results

Materials Week 2000, <http://www.materialsweek.org/proceedings/index.htm>

Aris, S.; Martins, R.V.; Wegener, J.; Honkimäki, V.; Pyzalla, A.:

Texture and crystallite microstrain development during tensile deformation of copper – simulation and comparison to experimental results

4th European Mechanics of Materials Conference, UTC Compiègne, Nancy (2000), S. 1-8

Bohne, C.; Pyzalla, A.; Heitkemper, M.; Fischer, A.:

Influence of rapid heat treatments on residual stresses and corrosion resistance of a high nitrogen steel

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol.2, (2000), S. 1275-1282

Brückner U., Epishin A, Link T., Portella P.:

Creep induced evolution of internal stresses and structure in a single crystal nickel-base superalloy

Proceedings of the 5th European Conference on Residual Stresses (ECRS-5), Delft-Noordwijkerhout, The Netherlands, 28-30 September 1999, Mat. Science Forum 347-349, (2000), S. 363

Dantz, D.; Genzel, Ch.; Reimers, W.:

Microstructural investigations and residual stress analysis of ZrO₂/Ni functionally graded materials

Microstructural Investigation and Analysis, EUROMAT 99, Wiley-VCH Verlag, Weinheim, Vol. 4, (2000), S. 157-162

Dantz, D.; Genzel, Ch.; Reimers, W.; Liss, K.-D.:

Residual stress analysis in metal/ceramic functionally graded materials

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol. 1, (2000), S. 717-724

Dantz, D.; Genzel, Ch.; Reimers, W.:

Investigations of the residual stress state in microwave sintered functionally graded materials

Ceramik Transactions 114, (2000), S. 563-567

Dieter, S.; Pyzalla, A.; Reimers, W.:

Texture and internal stresses in FeCo-layers for microinductors

Proc.3rd Int. Conf. Micro Materials 2000, (17.-19.04.2000), (B. Michel, T. Winkler, M. Werner, H. Fecht (eds.)), ddp-Goldbogen-Verlag, Dresden, 2000, S. 404-407

Epishin, A.; Kablov, E.; Golubovskiy, E.; Svetlov, I.; Link, T.; Brückner, U.; Portella, P.:

Rupture life time prediction and deformation mechanisms during creep of single-crystal Nickel-base superalloys

Creep in structures, April 2-7, 2000, Nagoya University, Nagoya, Japan, 2000

Epishin, A.; Link, T.; Portella, P.D.; Brückner, U.:

Evolution of the gamma/gamma' microstructure during high temperature creep of a nickel base superalloy

Acta materialia 48, (2000), S. 4169-4177

Fiori, F.; Girardin, E.; Giuliani, A.; Lorentzen, T.; Pyzalla, A.; Rustichelli, F.; Stanic, V.:

Neutron diffraction measurements for the determination of residual stresses in MMC tensile and fatigue specimens

Physica B 276-278, (2000), S. 923-924

Fischer, A.; Pyzalla, A.; Heitkemper, M.; Bohne, C.:

Gefüge und Eigenschaften des hochstickstoffhaltigen, martensitischen Werkzeugstahls X30CrMoN15-1 nach Kurzzeitwärmebehandlung

HTM 55, (2000), S. 20-26

Genzel, Ch.; Reimers, W.:

X-ray residual stress gradient analysis under difficult conditions – attempts for improving the solution

Materials Science Forum 321-324, (2000), S. 75-80

Genzel, Ch.; Reimers, W.; Haase, A.:

A new type of X-ray stress and texture diffractometer for the analysis of complex near surface residual stress fields

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol.1, (2000), S. 74-81

Heinrich, U.; Pucher, H.; Schenk, B.; Reimers, W.; Schmackers, T.:

Ceramic/metal-shaft/hub connection for applications in small high temperature ceramic gas turbine rotors

ASME TURBOEXPO , München (2000), S. 01-09

Heitkemper, M.; Bohne, C.; Fischer, A.; Pyzalla, A.:

Properties of rapid heat treated high nitrogen steels

Surface Engineering, EUROMAT - Vol.11, Wiley-Wiley-VCH Verlag, Weinheim (2000), S. 445-450

Heitkemper, M.; Bohne, C.; Fischer, A.; Pyzalla, A.:

Verschleißverhalten des laserwärmebehandelten hochstickstofflegierten Werkzeugstahls X30CrMoN151

Materialwissenschaft und Werkstofftechnik 31, (2000), S. 918-922

Link, T.; Epishin, A.; Brückner, U.; Portella, P.:

Increase of misfit during creep of superalloys and its correlation with deformation

Acta mater. 48, (2000), S. 1981-1994

Link, T.; Epishin, A.; Brückner, U.:

Analysis of phase boundaries in gamma-gamma' nickel high-temperature alloys with the use of Moire patterns

Materials Science Transactions 8, 2000, S. 15-21 (in Russian lang.)

Martins, R. V.; Grigull, S.; Lienert, U.; Margulies, L.; Pyzalla, A.:

Investigation of the residual strain state in highly plastically deformed AL-MMC torsion samples using high energy synchrotron radiation

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol. 2, (2000), S. 90-97

Mayer, H. M.; Achmus, C.; Pyzalla, A.; Reimers, W.:

Neutron and X-ray diffraction analyses of the influence of induction-hardening and deep-rolling on the residual stresses in crankshafts

Materials Science Forum 347-349, (2000), S. 340-345

Mayer, H. M.; Achmus, C.; Pyzalla, A.; Reimers, W.:

Increase of fatigue strength of crankshafts by deep-rolling and induction hardening induced beneficial residual stress states - experimental determination and FEM simulation

Materials Week 2000, <http://www.materialsweek.org/proceedings/index.htm>

Mayer, H. M.; Pyzalla, A.; Reimers, W.:

Construction of the new material science neutron diffractometer STRESS-SPEC

Materials Science Forum 347-349, (2000), S. 29-33

Michels, A.; Weissmüller, J.; Wiedenmann, A.; Barker, J.:

Exchange-stiffness constant in cold-worked and nanocrystalline Ni measured by elastic small-angle scattering

J. Appl. Phys. 87, (2000), S. 5953-5955

Möller, D.; Reimers, W.; Pyzalla, A.; Fischer, A.:

Residual stresses in coronary artery stents

Journal of Biomedical Materials Research 58, (2000), S. 69-74

Poeste, T.; Mayer, R. V.; Pyzalla, A.; Trepte, S.; Severin, D.:

Structure and residual stress determination on brake disk

Materials Week 2000, <http://www.materialsweek.org/proceedings/index.htm>

Pyzalla, A.:

Methods and feasibility of residual stress analysis by high energy synchrotron diffraction in transmission geometry using a white beam

Journal of Nondestructive Evaluation 19, (2000), S. 21-31

Pyzalla, A.:

Determination of the residual stress state in components using neutron diffraction

Journal of Neutron Research 8, No.3, (2000), S. 187-213

Pyzalla, A.:

Stress and strain measurements: X-rays and neutrons

Physica B 276-278, (2000), S. 833-836

Pyzalla, A.; Bohne, C.; Heitkemper, M.; Fischer, A.:

Influence of laser hardening on microstructure, wear and chemical properties of high nitrogen tool steels

5th ASM Treatment and Surface Engineering, ASM International, Gothenburg, Sweden, (2000), S. 299-309

Pyzalla, A.; Brodmann, M.; Lee, P.L.; Haeffner, D.:

Microstructure, texture and residual microstrains in MgAl8Zn deformed at very high strain rates

Wiley-VCH Verlag, Weinheim, (2000), S. 125-130

Pyzalla, A.; Müller, K.-B.; Wegener, J.:

Hot extrusion of a PM AlSi-alloy - influence of extrusion parameters on microstructure and properties

Zeitschrift für Metallkunde 91, (2000), S. 831-837

Pyzalla, A.; Reimers, W.; Liss, K.D.:

A comparison of neutron and high energy synchrotron radiation as tools for texture and stress analysis

Materials Science Forum 347-349, (2000), S. 34-39

Pyzalla, A.; Wang, L.; Wild, E.; Wroblewski, T.:

Einfluss des Verschleißes auf die Mikrostruktur und den Eigenspannungszustand von Schienen

Materialwissenschaft und Werkstofftechnik 31, (2000), S. 776-779

Pyzalla, A.; Wegener, J.; Müller, K.B.; Liss, K.D.:

Influence of extrusion parameters on microstructure and texture of AlSi25CuMg1

Materials Science Forum 331-337, (2000), S. 781-786

Pyzalla, A.; Wegener, J.; Müller, K.B.; Liss, K.-D.:

Microstructure, texture and residual stresses of hot-extruded AlSi-alloys

EUROMAT - Vol.4, Wiley-VCH Verlag, Weinheim, (2000), S. 96-102

Pyzalla, A.; Wild, E.; Reimers, W.:

Investigation of the formation of white etching layers and residual stresses in railway rails

Materials for Transportation Technology, EUROMAT - Vol.1, Wiley-VCH Verlag, Weinheim, (2000), S. 358-363

Reimers, W.:

Analysis of residual stress states

Materials Science Forum 321-324, (2000), S. 66-74

Sprauel, J.M.; Barrallier, L.; Lodini, A.; Pyzalla, A.; Reimers, W.:

Determination of residual stresses in nitrided layers generated by gas nitriding

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol. 2, (2000), S. 1343-1348

Stock, C.; Genzel, Ch.; Reimers, W.:

Residual stress analysis in the Intermediate zone between surface and volume by energy dispersive X-ray diffraction-problems and attempts at their solution

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol. 1, (2000), S. 727-734

Wegener, J.; Pyzalla, A.; Müller, K.B.:

Dependence of microstructure, texture and residual stresses of the PM Al-alloy AISi25Cu4Mg1 on the billet temperature and speed of extrudates

3 rdESAFORM Conference on Material Forming, Sprint-Druck GmbH, Stuttgart, (2000), S. VIII-19 -VIII-21

Wild, E.; Wang, L.; Wroblewski, T.; Pyzalla, A.:

Investigation of the microstructure and the residual stress state of a worn railway rail

The Sixth International Conference on Residual Stress (ICRS-6), IOM Communications, London, Vol. 2, (2000), S. 889-896

Wroblewski, T.; Wild, E.; Poeste, T.; Pyzalla, A.:

Processing of X-ray diffraction imaging data using remote sensing techniques

Journal of Materials Science Letters 19, (2000), S. 975-978
