

Publikationen 2012

Boyko, V.; Link, T.; Mykhalenkov, K.:

Microstructural studies of AlMg5Si2Mn high pressure die casting alloy

in: Proceedings of X International Scientific Conference "Special Electric Metallurgy: Yesterday, Today and Tomorrow", ed. by D. Chernega, S. 101-109

Boyko, V.; Link, T.; Mykhalenkov, K.:

Characterization of structure of AlMg5Si2Mn high pressure die casting aluminium alloy

in: Proceedings of XIII Scientific Conference "Casting of Non-Ferrous Metals and Alloys: Science and Technology", ed. by Z. Bonderek, S. 24-31

Boyko, V.; Link, T.; Mykhalenkov, K.:

Structural characterization of Al.-Mg-Ge alloys

in: Proceedings of XIII Scientific Conference "Casting of Non-Ferrous Metals and Alloys: Science and Technology", ed. by Z. Bonderek, S. 32-39

Boyko, V.; Link, T.; Mykhalenkov, K.:

Strengthening particles in aluminium casting alloys

in: Proceedings of International Conference "Foundry Production: Technology, Materials, Equipment and Ecology", ed. by V. Naidek, S. 39-41

Boyko, V.; Link, T.; Mykhalenkov, K.:

Nano-particles in aluminum casting alloys

in: Proceedings of International Scientific Conference "Materials for Extreme Applications", ed. by P. Loboda, S. 45-51

Boyko, V.; Prach, O.; Trudonoshin, O.; Mykhalenkov, K.:

Novel Al-Mg-Si casting alloys - Overview

in: Proceedings of International Scientific Conference "Materials for Extreme Applications", ed. by P. Loboda, S. 40-44

Fedelich, B.; Epishin, A.; Link, T.; Klingelhöffer, H.; Künecke, G.; Portella, P. D.:

Rafting during high temperature deformation in a single crystal superalloy - experiments and modelling

in: Superalloys 2012, ed. by E. S. Huron et al., TMS, Warrendale PA USA, 2012, S. 491-500.

Fedelich, B.; Epishin, A.; Link, T.; Klingelhöffer, H.; Künecke, G.; Portella, P. D.:

Experimental characterization and modelling of creep induced rafting in superalloys

Computational Materials Science, Vol. 64, 2012, S. 2-6.

Gall, S.; Huppmann, M.; Mayer, H.-M.; Müller, S.; Reimers, W.:

Hot working behavior of AZ31 and ME21 magnesium alloy

Journal of Materials Science, (2012), DOI 10.1007/s10853-012-6761-z

Ockewitz, V.; Sun, D.-Z.; Andrieux, F.; Müller, S.:

Simulation of hot extrusion of an aluminum alloy with modeling of microstructure

Key Engineering Materials, 491, (2012), S. 257-264

Oddershede, J.; Camin, B.; Schmidt, S.; Mikkelsen, L. P.; Sørensen, H.; Lienert, U.; Poulsen, H. F.; Reimers, W.:

Measuring the stress field around an evolving crack in tensile deformed Mg AZ31 using three-dimensional X-ray diffraction

Acta Materialia, 60, (2012), S. 3570-3580

Müller, S.; Mühlhause, J.; Maier, J.; Hora, P.:

Experimental and numerical analysis of the friction condition in the die bearing during aluminum extrusion

Key Engineering Materials, 491, (2012), S. 113-119

Negendank, M.; Müller, S.; Reimers, W.:

Coextrusion of Mg-Al macro composites

Journal of Materials Processing Technology, 212, (2012), S. 1954-1962

Schneider, W.; Lapyeva, G.; Lentz, M.; Karhausen, K.F.:

Through process microchemistry effects on the properties of 8xxx sheet

Materials Science Forum, 706-709, (2012), S. 323-328

Schnubel, D.; Horstmann, M.; Ventzke, V.; Riekehr, S.; Staron, P.; Fischer, T.; Huber, N.:

Retardation of fatigue growth in aircraft aluminium alloys via laser heating - Experimental proof of concept

Materials Science and Engineering A, 546, (2012), S. 8-14

Uhlmann, E.; Reimers, W.; Sammler, F.; Meixner, M.:

Werkzeugauslegung zur Bearbeitung von Leichtbauwerkstoffen

wt Werkstattstechnik online, 102, 6, (2012), S. 416-424
