Information about rating criteria

The jury does not only review the quality of the submitted thesis, but also includes other criteria in its rating. Please give a short summary how the following criteria apply to you and your thesis.

1. Innovation (e.g.: To what does extent does your scientific work not only carry forward already existing theories, but offers new ideas, developments and methods?) (600 characters maximum)

2. Multidisciplinarity (e.g.: To what extent are you using methods and approaches from various scientific disciplines?) (600 characters maximum)

3. Practical relevance (e.g.: How does your thesis refer to practice?) (600 characters maximum)

4. Other criteria (e.g.: Do you have care or family tasks?) (600 characters maximum)

5. Commitment (e.g.: Are you committed sociopolitically or in university politics?)
