Compliance with ILO core labor standards

I/We declare that

it is not possible to submit evidence that the contractually agreed delivery of the goods has not been obtained or produced in violation of the minimum standards laid down in the ILO core labor standards, in accordance with Section 8 (2) of the Berlin public tender procurement act (Berliner Ausschreibungs- und Vergabegesetz - BerlAVG). Despite my/our concerted efforts, it was not possible to identify the relevant certificates.

I am/We are aware that a deliberately false declaration will lead to exclusion from further contract awards and that my/our company can be excluded from the award of public contracts for a period of up to three years.

______________________________  ______________________________
(Place, Date)                     (Signature, Company stamp)

Please note:
If you wish to participate in the written contract award procedure, you must sign the declaration here.

Explanations:
In accordance with the special conditions of contract for compliance with ILO core labor standards (Wirt-2140), the contractor must submit one of the items given in the table on the next page for each product to be supplied that features in the following list:

- Products made of natural leather (including sports balls made of natural leather)
- Natural textiles, especially those made from cotton
- Handmade carpets
- Natural stones
- Products made of wood
- Coffee, cocoa, tea
- Tropical fruit, fruit juice, wine
- Spices, honey, rice, dried fruit, nuts, sugar, confectionery
- Fishery products
- Fireworks, matches
- Cut flowers, potted plants

The document must be submitted with the delivery of the product at the latest.
**Evidence**

Generally, the best possible compliance with the ILO core labor standards is ensured by submitting the product certificates provided at [http://www.kompass-nachhaltigkeit.de/](http://www.kompass-nachhaltigkeit.de/), if they expressly include compliance with the ILO core labor standards pursuant to Section 8 (1) of the Berlin public tender and procurement act (BerlAVG).

---

**or a certificate of origin**

The best possible compliance with the ILO core labor standards is also considered to have been ensured if the products were manufactured outside the countries on the DAC list. This list is maintained by the Federal Ministry for Economic Cooperation and Development: [https://www.bmz.de/de/ministerium/zahlen_fakten/oda/hintergrund/dac_laenderliste/index.html](https://www.bmz.de/de/ministerium/zahlen_fakten/oda/hintergrund/dac_laenderliste/index.html)

---

**alternatively a self-declaration (see above)**

Only in those cases where, despite concerted effort, no relevant certificates could be identified, may a self-declaration be submitted for each product concerned.
